What is this product?

Type

The product is a UCITS - Part 1 sub-fund of a SICAV under Luxembourg law.

Term

This product is an open-ended fund without predefined maturity. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. The NC share class of DWS Invest StepIn Akkumula was launched in 2025.

Objectives

The fund is actively managed. The fund is not managed in reference to a benchmark. The fund promotes environmental and social characteristics and is subject to the disclosure requirements of a financial product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. More ESG information is available in the sales prospectus and on the DWS website. The objective of the investment policy is to generate an above average return for the sub-fund. In order to achieve this, the sub-fund will invest globally in fixed income assets such as interest-bearing securities, convertible bonds, money-market instruments, deposits with credit institutions and fixed income investment funds (the “Fixed Income Assets”) as well as equities and/or securities equivalent to equities and equity investment funds (“the Equities”). A fund with a predominate fixed income proportion qualifies as fixed income investment fund while a fund with a predominate equity proportion qualifies as equity investment fund. Investment in Fixed Income Assets and Equities shall be mainly held through investment funds. At the launch date, the sub-fund’s assets shall be predominantly invested in Fixed Income Assets. The portfolio management intends to decrease the respective proportion of Fixed Income Assets step-by-step over a three-year period and simultaneously increase the respective proportion invested into Equities to at least 90%. The sub-fund’s assets shall be shifted monthly (step-by-step) over a three-year period (the “Shifting Period”) into Equities. The portfolio management intends to increase the respective proportion of Equities by 2.5% of the sub-fund’s assets with each monthly step (monthly “StepIn”). The sub-fund may use suitable derivative financial instruments and techniques for hedging, efficient portfolio management or investment purposes, including – but not limited to – forwards, futures, options and swaps (including credit default swaps). The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. This fund is a sub-fund of DWS Invest for which the sales prospectus and the periodic reports are prepared as a whole. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another. More share classes may be available for this fund - please refer to the relevant section of the sales prospectus for further details. Shares may in many cases be exchanged for shares in another share class of the same or another DWS Invest SICAV sub-fund. Details can be found in the "Exchange of shares" section of the sales prospectus. The depositary is State Street Bank International GmbH, Luxembourg Branch.
