Past performance

This chart shows the DB Global Equity LC performance as the percentage loss or gain per year over the last 10 years.

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the DB Global Equity LC has been managed in the past.

All costs and fees that were withdrawn from the LC share class of DB Global Equity were deducted during the calculation. Entry and exit charges were not taken into account. Performance calculation includes reinvested dividends. The LC share class of DB Global Equity was launched in 2019.

PLEASE NOTE: The performance shown up to and including 2018 is not that of the fund, but that of DB Platinum PWM CROCI Multi Fund, which merged into the fund on 14.02.2019. With the merger there has been no change to the investment process as the portfolio manager will apply the same asset allocation strategy as described in the sales prospectus. 2019 shows a combined performance of both funds.
