What is this product?

Type

The product is a AIF - Part 2 FCP under Luxembourg law.

Term

This product is an open-ended fund without predefined maturity. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. DWS Gold plus was launched in 1994.

Objectives

The fund is actively managed. The fund is not managed in reference to a benchmark. The objective of the investment policy is to achieve the highest possible appreciation of capital. In order to achieve this, the fund invests predominantly in bonds, convertible bonds and other fixed-interest securities or floating rate bonds so as to participate in the developments in the markets for precious metals. Gold, palladium, platinum and silver are considered to be precious metals. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. Returns and gains are not distributed but are reinvested in the fund. The depositary is State Street Bank International GmbH, Luxembourg Branch. More detailed information on this fund, such as the sales prospectus as well as the latest annual and semi-annual report, can be obtained free of charge online at www.dws.com. Select your country of residence on the website, enter the fund name in the search bar and select the desired documents under "Downloads".

Intended retail investor

The fund is aimed at private clients with a long-term investment horizon and advanced knowledge/experience and who can bear a financial loss. The fund can be used for general asset accumulation.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

The following is applicable if you subscribe for or settle shares in a different currency than the fund or share-class currency: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The following risks could be of particular significance for the fund: Derivatives risk, Concentration risk. A more detailed description of risks and other general information can be found in the risk section(s) of the sales prospectus. You may lose some or all of your investment. Your risk is limited to the amount invested. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 12 years. Markets could develop very differently in the future.

Recommended holding period: Example Investment:	7 years 10.000 EUR		
	If you exit after 1 year	If you exit after 7 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	4,650 EUR -53.5 %	3,820 EUR -12.8 %
Unfavourable	What you might get back after costs Average return each year	8,790 EUR -12.1 %	12,860 EUR 3.7 %

	Average return each year	7.1 %	6.0 %
Favourable	What you might get back after costs Average return each year	15,040 EUR 50.4 %	29,930 EUR 17.0 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. For the 1 year holding period the following applies: This type of scenario (Favourable, Moderate, Unfavourable) occurred for an investment between (Favourable: 30.12.2024-30.12.2025, Moderate: 30.12.2022-29.12.2023, Unfavourable: 29.07.2016-31.07.2017). For the recommended holding period the following applies: This type of scenario (Favourable, Moderate, Unfavourable) occurred for an investment between (Favourable: 30.11.2018-28.11.2025, Moderate: 30.09.2015-30.09.2022, Unfavourable: 30.09.2016-29.09.2023).

What happens if DWS Investment S.A. is unable to pay out?

The assets of the fund are kept separately from those of the management company, DWS Investment S.A.. An insolvency or default of the management company should not result in the fund suffering any financial loss in relation to its assets. On the insolvency or default of the depositary State Street Bank International GmbH, Luxembourg Branch securities held by the depositary on behalf of the fund should be protected but the fund may suffer loss in relation to cash and certain other assets which are not protected. Cash deposits of the fund deposited with other credit institutions may cause investors to suffer a financial loss if such deposits are not covered by any existing deposit guarantee schemes. Investment in the fund is not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 7 years
Total costs	402 EUR	1,147 EUR
Annual cost impact (*)	4.0 %	1.5 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.0% before costs and 5.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge (3.00 % of amount invested/300 EUR). This person will inform you of the actual distribution fee.

Exit costs	We do not charge an exit fee.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.91 % of the value of your investment per year. This is an estimate based on actual costs for the fiscal year ending 31.12.2025.	91 EUR
Transaction costs	0.11 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	11 EUR
Incidental costs taken under specific conditions		
Performance fees	We do not charge a performance fee.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 7 years. The product has no minimum holding period.

This product has no required minimum holding period. The recommended holding period has been selected due to its investment strategy and because it is designed for a long term investment horizon. It is expected that it will be possible to achieve the investment objective of the fund within this time frame. You may request the redemption of shares generally on each valuation date. No fees or penalties will be charged by the company for any such transaction.

There is no change on the risk return profile when you redeem your shares early.
