- 2 Cash outflows mainly driven by US corporate cash management that reverted start of April
- 3 Outflows in Equity driven by retail outflows in individual funds
- 4 Multi Asset outflows in retail products and a pension fund redemption from a German corporate client
- 5 Fixed Income outflows primarily driven by a low margin European insurance mandate, partly offset by inflows from corporate clients

REVENUE DEVELOPMENT

ADJUSTED REVENUES (€M)

- Other revenues
- Performance & transaction fees & other non-recurring revenues
- Management fees and other recurring revenues

HIGHLIGHTS (COMPARED TO 4Q-17)

- Total adjusted revenues of €561m, of which 94% from stable management fees
- Management fees and other recurring revenues decline by 3% vs 4Q-17, representing a shorter quarter
- Performance and transaction fees decrease by €45m due to significant Active performance fees recognition in 4Q-17
- Higher Alternatives transaction fees have partly offset lower performance fees compared to 4Q-17
- Other revenues increase by €14m, primarily driven by the positive change in fair value of guarantees

MANAGEMENT FEES AND MARGIN DEVELOPMENT

HIGHLIGHTS (COMPARED TO 4Q-17)

Across all products, fewer days in the first quarter lead to a reduction in management fees

- 1 Apart from the above, Equity management fees slightly down due to volatile equity markets, with margin remaining stable
- 2 Decrease in management fees for Multi Asset driven by markets and other effects, with margin largely stable
- 3 Slight decline in Fixed Income management fees primarily due to lower AuM driven by Institutional outflows, with overall margin stable
- 4 Passive management fees increase due to net inflows
- 5 Alternatives' decline in management fees largely attributed to a negative effect from net flows

x Management fee margin⁽¹⁾ (bps) x Management fees⁽²⁾ (€m)

(1) Calculated by dividing the annualized management fees (considering the number of days in a specific quarter) for a period by average AuM for the same period

(2) Management fees and other recurring revenues; non-product related management fees of €5m in 1Q-17, €3m in 4Q-17 and €4m in 1Q-18 excluded in asset class breakdown

COST DEVELOPMENT

ADJUSTED COMPENSATION & BENEFITS (€M)

x FTE (period-end)

ADJUSTED GENERAL AND ADMINISTRATIVE EXPENSES (€M)

HIGHLIGHTS (COMPARED TO 4Q-17)

- FTE increase driven by:
 - Infrastructure transfers and hires for standalone company capabilities
 - Growth initiative hires
- Variable compensation costs decrease due to adjustments made in 4Q-17
- 10% reduction in general & admin. cost is largely attributed to:
 - 30% reduction in DB Group charges to new agreed levels
 - Rebranding spend in 4Q-17
 - Partially offset by research costs impacted by MiFID II

Note: Compensation & benefits adjusted for severance payments (2m in 1Q-17, 6m in 4Q-17, 1m in 1Q-18) and general and administrative expenses adjusted for litigation (1m in 1Q-17, (1)m in 4Q-17)

CONCLUSION & OUTLOOK

-  Q1 has been challenging for net flows but sales activity remains high and our pipeline is strong
-  Investment performance remains strong over 3 and 5 years
-  Cost efficiency initiatives are in flight with good traction in Q1
-  Key hires onboarded to support growth initiatives
