DWS KGaA is a partnership limited by shares (Kommanditgesellschaft auf Aktien – KGaA) with a German-law limited liability company (Gesellschaft mit beschränkter Haftung – GmbH) as its general partner. The general partner of DWS KGaA, DWS Management GmbH, is a wholly owned subsidiary of DB Beteiligungs-Holding GmbH, which is 100% owned by Deutsche Bank AG.

DWS KGaA is the parent of the DWS Group, and as such prepares IFRS consolidated financial statements. These can be accessed and viewed on the Investor Relations website of DWS KGaA (https://group.dws.com/ir).

There are domination and profit pooling agreements with the subsidiaries DWS Beteiligungs GmbH, Frankfurt am Main, DWS International GmbH, Frankfurt am Main, and DWS Real Estate GmbH, Frankfurt am Main, in place.

DWS KGaA was listed on the Frankfurt Stock Exchange on March 23, 2018. DWS KGaA's shares are admitted to trading on the regulated market segment with additional post-admission obligations (Prime Standard), which has the most stringent transparency and disclosure requirements in Germany.

Principles and Methods

The annual financial statements of DWS KGaA for the financial year 2020 have been prepared in accordance with the provisions of the German Commercial Code (Handelsgesetzbuch – HGB) and the supplementary provisions of the German Stock Corporation Act (Aktiengesetz – AktG).

In accordance with Section 315 (5) in conjunction with Section 298 (2) HGB, the management report of DWS KGaA and the Group management report have been summarized and published in the 2020 Annual Report.

The company is a publicly traded corporation (kapitalmarktorientierte Kapitalgesellschaft) in accordance with Section 264d HGB and is classified as a large corporation in accordance with Section 267 (3) HGB.

The balance sheet has been structured in accordance with the provisions for large corporations. The income statement has been prepared in accordance with the nature of expense method. To the extent possible, the required "thereof" figures are presented in the balance sheet and income statement.

Accounting and Valuation Principles

The reporting currency is euro. All figures are rounded to the nearest thousand. Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Offsetting

In accordance with Section 246 (2) Sentence 1 HGB, assets are not offset against liabilities and expenses are not offset against income. An exception to this is the minority interest paid in connection with a domination and profit pooling agreement that is offset against income from profit pooling agreements. In addition, assets that serve exclusively to meet liabilities under pension or similar long-term obligations are offset against the corresponding liabilities within the meaning of Section 246 (2) Sentence 2.
HGB. Furthermore, deferred tax assets and deferred tax liabilities are netted. Any resulting deferred tax asset is recognised in accordance with the option set out in Section 274 (1) Sentence 1-2 HGB.

**Financial Assets**

Investments in affiliated companies and participating interests are carried at cost less write-downs if the impairment is considered other than temporary. The investments are accounted for using the moderate lower-of-cost-or-market rule in accordance with Section 253 (3) HGB. Impairments are only recognized if the impairment is considered other than temporary.

Long-term investment securities are carried at cost or at their lower fair value exercising the option under Section 253 (3) HGB.

**Securities**

Securities that are classified as current assets are accounted for using the strict lower-of-cost-or-market rule. This means that they are carried at the lower of acquisition cost or market respectively attributable value.

**Receivables, Other Assets and Bank Balances**

The receivables, other assets and bank balances reported under current assets are carried at their nominal value.

**Deferred Tax Assets and Liabilities**

Deferred tax assets and liabilities are recognized for temporary differences between the carrying amounts in the HGB financial statements of assets, liabilities, deferred income and prepaid expenses and their respective tax bases, which are expected to reverse in subsequent financial years. This includes not only the temporary differences from the company's own balance sheet items, but also the temporary differences of the consolidated tax group companies. Deferred tax assets and liabilities are measured on the basis of the combined income tax rate (currently 31.9%) of the consolidated tax group of DWS KGaA. The combined income tax rate includes corporate income tax, trade tax and the solidarity surcharge.

**Provisions**

Provisions for pensions and similar obligations are calculated in accordance with actuarial principles using the projected unit credit method. A discount rate of 2.30%, projected annual wage and salary increases of 1.73% and projected annual pension increases of 1.13% were used for measurement purposes. The modified Richtafeln Heubeck 2018 G were used as mortality tables. As of December 31, 2020, the difference in accordance with Section 253 (6) Sentence 1 HGB amounted to € 1,962 thousand and is the amount by which the pension obligation calculated using the discount rate for pension obligations falls below the pension obligation calculated using the average market interest rate of the past seven financial years.

**Change in estimate of the service period for certain compensation awards:**

As a result of recent developments and historical experience, DWS Group including its parent company DWS KGaA has changed in the second quarter of 2020 its estimate of the service period for certain compensation awards granted to employees to recognize compensation expense over the respective vesting periods in which the related employee services are rendered. As a result of the change in estimate, DWS KGaA's net award liability reduced by € 1,188 thousand.

Other provisions and provisions for taxes are recognized in accordance with the principles of prudent business judgement at their settlement amount.

**Liabilities**

Liabilities are carried at their settlement amount.
Income and Expenses

Income and expenses are recognized on an accrual basis.

Valuation of investments in affiliated companies

With regard to applied accounting and valuation principles, we refer to the notes. Disclosures on the business development can be found in the summarized management report in the section entitled "Supplementary Information on DWS Group GmbH & Co KGaA according to German Commercial Code (HGB)".

THE FINANCIAL STATEMENT RISK

As of December 31, 2020, investments in affiliated companies amounting to EUR 7,452 million are reported under financial assets – investments in affiliated companies in the annual financial statements of DWS Group GmbH & Co. KGaA. Investments in affiliated companies amount to 86% of total assets and therefore have a significant influence on the Company's assets and liabilities.

Investments in affiliated companies are stated at cost or, in the case of permanent impairment, at their lower fair value. The Company determines the fair value using the discounted cash flow method with the involvement of experts for those investments in affiliated companies for which there are indications of impairment.

The cash flows used for the discounted cash flow method are based on individual projections for each investment for the next two to five years, which are extrapolated using assumptions about long-term growth rates. The respective discount rate is derived from the return on a risk-appropriate alternative investment. If the fair value is lower than the carrying amount, qualitative and quantitative criteria are used to determine whether the impairment is considered to be permanent.

The impairment test, including the calculation of the fair value using the discounted cash flow method, is complex and depends to a large extent on the Company's estimates and judgments with regard to the assumptions made. This applies, among other things, to the assessment of indications of impairment, the estimation of future cash flows and long-term growth rates, the determination of discount rates and the judgment of whether impairment is permanent.

Competition in the asset management industry continued to intensify in financial year 2020. Future business prospects continue to be negatively affected in particular by the continued compression of margins globally and rising costs of market entry. Against this backdrop, the Company recognized impairment losses of EUR 20 million on investments in affiliated companies in financial year 2020. There is a risk for the financial statements that impairment losses on investments in affiliated companies are not recognized or not recognized in the appropriate amount.

OUR AUDIT APPROACH

First, we gained an understanding of the Company's process for impairment testing investments held in affiliated companies through explanations of investment controlling and an appraisal of the documentation. This involved critically examining the Company's procedure for determining whether impairment losses need to be recognized. In the process, we also included information that DWS Group GmbH & Co. KGaA regularly collects from its direct subsidiaries by means of a structured questionnaire to assess circumstances that lead to potential impairment. In this regard, we inspected the correspondence with the subsidiaries in full and verified the resulting insights used to assess whether impairment is expected to be permanent.

Subsequently, with the involvement of our valuation specialists, we assessed the appropriateness of the key assumptions and the valuation model for the company valuations carried out by the Company or by an independent expert commissioned by the Company. To this end, we discussed the expected cash flows and the assumed long-term growth rates with those responsible for planning. In addition, we reconciled this information with other internally available forecasts, e.g. the budget prepared by the Executive Board and approved by the Supervisory Board. In addition, we assessed the consistency of assumptions with external market assessments. We verified the long-term growth rate using forecasts for inflation and real GDP growth from the Economist Intelligence Unit and the International Monetary Fund.

Further, we satisfied ourselves of the quality of the Company's forecasts to date by comparing the budgets from previous financial years with the results actually achieved and by analyzing deviations. Based on these findings, we also assessed whether there is objective evidence of impairment at subsidiaries for which the Company did not identify any need to recognize impairment losses.
We compared the assumptions and parameters underlying the discount rate, in particular the risk-free rate, the market risk premium and the beta factor, with our own assumptions and publicly available data. In order to take account of the existing forecasting uncertainty, we also examined possible changes in the discount rate, the expected cash flows and the long-term growth rate on the fair value (sensitivity analysis) by calculating alternative scenarios and comparing them with the Company's valuation results. In order to ensure the computational accuracy of the valuation model used, we verified the Company's calculations on the basis of selected risk-based elements.

OUR OBSERVATIONS
The procedure used for the impairment test of investments in affiliated companies is appropriate for the identification and valuation of impairment losses in investments in affiliated companies and is consistent with the accounting policies. The Company's assumptions, estimates and parameters are appropriate.

Responsibilities of Management and the Supervisory Board for the Annual Financial Statements and the Summarized Management Report
Management is responsible for the preparation of annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German legally required accounting principles. In addition, management is responsible for such internal control as they, in accordance with German legally required accounting principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, management is responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going-concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, management is responsible for the preparation of the summarized management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In
addition, management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a summarized management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the summarized management report.

The Supervisory Board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the summarized management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Summarized Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the summarized management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the summarized management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this summarized management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the summarized management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the summarized management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems.

- Evaluate the appropriateness of accounting policies used by management and the reasonableness of estimates made by management and related disclosures.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the summarized management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.

- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German legally required accounting principles.

- Evaluate the consistency of the summarized management report with the annual financial statements, its conformity with [German] law, and the view of the Company's position it provides.

- Perform audit procedures on the prospective information presented by management in the summarized management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.
We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

Other Legal and Regulatory Requirements

We have performed assurance work in accordance with Section 317 (3b) HGB to obtain reasonable assurance about whether the reproduction of the annual financial statements and the summarized management report (hereinafter the “ESEF documents”) contained in the file that can be downloaded by the issuer from the electronic client portal with access protection, file „ESEF DWS JAP.zip“ (SHA256-Hashwert: c1a24283e66e65f4814915d9a2db9d6f0f017b6b76b1a773d7d45b88c6c89d9eaa) and prepared for publication purposes complies in all material respects with the requirements of Section 328 (1) HGB for the electronic reporting format (“ESEF format”). In accordance with German legal requirements, this assurance only extends to the conversion of the information contained in the annual financial statements and the summarized management report into the ESEF format and therefore relates neither to the information contained in this reproduction nor any other information contained in the above mentioned electronic file.

In our opinion, the reproduction of the annual financial statements and the summarized management report contained in the above mentioned electronic file and prepared for publication purposes complies in all material respects with the requirements of Section 328 (1) HGB for the electronic reporting format. The Company’s management is also responsible for the submission of the ESEF documents together with the auditor’s report and the attached audited annual financial statements and audited summarized management report as well as other documents to be published to the operator of the German Federal Gazette [Bundesanzeiger].

The supervisory board is responsible for overseeing the preparation of the ESEF documents as part of the financial reporting process.

Our objective is to obtain reasonable assurance about whether the ESEF documents are free from material intentional or unintentional non-compliance with the requirements of Section 328 (1) HGB. We exercise professional judgement and maintain professional scepticism throughout the assurance work. We also:
- Identify and assess the risks of material intentional or unintentional non-compliance with the requirements of Section 328 (1) HGB, design and perform assurance procedures responsive to those risks, and obtain assurance evidence that is sufficient and appropriate to provide a basis for our assurance opinion.

- Obtain an understanding of internal control relevant to the assessment of the ESEF documents in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing an assurance opinion on the effectiveness of these controls.

- Evaluate the technical validity of the ESEF documents, i.e. whether the electronic file containing the ESEF documents meets the requirements of Commission Delegated Regulation (EU) 2019/815 on the technical specification for this electronic file.

- Evaluate whether the ESEF documents enable an XHTML reproduction with content equivalent to the audited annual financial statements and the audited summarized management report.
