To achieve this, the fund invests especially in other funds, but also in equities, interest-bearing securities, money market instruments and derivatives. Suitable investment fund units are selected using the principle of risk diversification and with a focus on particularly attractive characteristics ("champions"), i.e. taking into account

represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund invests a substantial portion in other funds. When investing in other funds, it must be taken into consideration that multiple target funds may follow investment strategies which are identical or contrary to one another. This can result in a cumulative effect of existing risks, and any opportunities for returns might be offset.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.
